**FOR IMMEDIATE RELEASE**

**SNYDERVILLE BASIN WATER RECLAMATION DISTRICT**

**MONTHLY  
“FLUSH INDEX”**

**PARK CITY, UT. (December 10, 2018)** -- The Snyderville Basin Water Reclamation District calculates a monthly “flush Index” for the purpose of estimating the number of visitors (visitor nights) that were present in the Park City/Snyderville Basin area. Listed below is the latest monthly index with a comparison from the previous year.

<b>November 2018 Visitor Nights “Flush Index”</b>	<b>% Difference from November 2017</b>
<b>199,719</b>	<b>3.9% decrease</b>

The “Flush Index” is based on historical wastewater flows measured by the Snyderville Basin Water Reclamation District. Actual methodology involves a statistical model that considers the quantity of wastewater, the strength of wastewater, monthly visitation patterns and an adjustment for rain or snow melt water seeping into the system.

**“Tip of the Month”**

**The Water Reclamation District would like to remind everyone to drop off their old and expired prescription medications at the drop off boxes located at the Park City Police Station and the Summit County Sheriff’s Office.**

The Snyderville Basin Water Reclamation District (SBWRD) collects and reclaims the wastewater generated by more than 13,000 homes and commercial enterprises in Park City and the Snyderville Basin. Its mission is “...to protect public health and the environment by developing, integrating, and implementing fiscally responsible solutions to wastewater, water reclamation and watershed protection issues.” Visit the Snyderville Basin Water Reclamation District’s website at [www.sbwrld.org](http://www.sbwrld.org).
