FOR IMMEDIATE RELEASE

SNYDERVILLE BASIN WATER RECLAMATION DISTRICT

**MONTHLY
“FLUSH INDEX”**

PARK CITY, UT. (March 11, 2019) -- The Snyderville Basin Water Reclamation District calculates a monthly “flush Index” for the purpose of estimating the number of visitors (visitor nights) that were present in the Park City/Snyderville Basin area. Listed below is the latest monthly index with a comparison from the previous year.

February 2019 Visitor Nights “Flush Index”	% Difference from February 2018
525,895	6.3% Increase

The “Flush Index” is based on historical wastewater flows measured by the Snyderville Basin Water Reclamation District. Actual methodology involves a statistical model that considers the quantity of wastewater, the strength of wastewater, monthly visitation patterns and an adjustment for rain or snow melt water seeping into the system.

“Tip of the Month”

**FREE Household Hazardous Material Collection Day.
Bring your drugs, paints, cleaners & solvents, car fluids, fertilizer and
batteries. April 27th, 9:00 – 1:00 pm in the Canyon's Parking Lot.**

The Snyderville Basin Water Reclamation District (SBWRD) collects and reclaims the wastewater generated by more than 13,000 homes and commercial enterprises in Park City and the Snyderville Basin. Its mission is “...to protect public health and the environment by developing, integrating, and implementing fiscally responsible solutions to wastewater, water reclamation and watershed protection issues.” Visit the Snyderville Basin Water Reclamation District’s website at www.sbwrld.org.
